Dear Mr Simon Eldred

*Hello and thanks for the concern, the paint and cleaning will be only inside will be no negative impact on outside appearance of the building and we will not paint any of the historic stonework as we want keep as more original as possible, the walls that will be painted are; the stairways walls, the main area and the 2nd floor room, the stairways will be keeping the same colours they are white and magnolia, the main room was in cladding and we just paint over the cladding in grey, 2nd floor is in smoke grey colour, all paints are water based that makes them environmental friendly paint with minimal to zero harmful effects on health. Anything else don't hesitate in contact me.*

*Many Thanks*
