AFFIDAVIT

I, Dean Goodeve, of the above-mentioned address make oath and say that:

 I am  years of age.

I moved into the above-named address in 2003 with my wife Stacey. The only other people to have lived with us have been our three children, who have now left home.

I have lived at the property continuously from 2003 to the current date. During this period of time, I have had no other place of residence.

Myself, my wife and our three children moved to the above-named address, having moved from Wales where I had run a small calf rearing unit but this did not prove to be a viable enterprise and we sold the property. When we first moved into our current dwelling my wife Stacey was the breadwinner for the family, I was not employed in agriculture locally, my occupation was house husband and involved looking after the family home and running our children to and from school. From 2005 I kept about some sheep and cattle on our property as a

hobby and no profit was derived from keeping these animals. By 2017 I had sold all the cattle and sheep and now keep only a few ponies on our property.

Before moving to our present address, my wife Stacey was a homemaker, looking after the children and family home. When we moved into the above-named property, my wife applied to be a teaching assistant in a local school and so became the breadwinner for the family. My wife has never been employed in agriculture and has now retired from employment. I have remained in my role as house husband, joining her in retirement. None of our three children, who have all left home now, have ever been employed in agriculture.

I can categorically state that since moving into the above-named address in 2003, I have not been employed locally in agriculture or forestry. No-one else residing at the property has been involved in agriculture or forestry.

Finally, I can state that I have no intention whatsoever of becoming employed in agriculture or forestry in the future or that any person so employed should take up residence in my home.

SWORN by the said Dean Goodeve
