

#### Air Quality –

1. Air Quality Assessment – Please supply an Air Quality Assessment indicating the change in air quality resulting from the proposed development and outlining appropriate mitigation measures as necessary. The East Midlands Air Quality Network Planning Guidance and further information regarding air quality can be found on our website;  
'We/I have considered air quality as part of this development and do not consider there is mitigation that can be implemented as part of this development.'

Many Thanks

Kind Regards

Darren King
