**Planning Application Ref: B/21/0013**

**Proposal: Boston Hand Car Wash Valeting at 51A Wide Bargate Boston PE21 6SH**

### **Air Quality Assessment**

I have considered air quality due not fill that any mitigation or anything can be done in respect as part of this development and do not consider there is mitigation that can be implemented as part of this proposed hand car wash valeting development. This will be the criteria under which our proposal will be considered in accordance with Policy 30 of the South East Lincolnshire Local Plan 2011-2036.

We are practicing that cars while is waiting or washing and validate is constantly engine is switch off so pollution is minimum, approximately car wash and valeting is complete within 15min to 20min.

I hope air quality assessment it will be adequate to validate our current planning application, however should you need any additional support information regarding our current planning application please do not hesitate to contact me directly on [REDACTED] or by email.

Yours faithfully,

Sejad Mehanovic
