Dear Grant

Thank you for getting back to me, we will of course agree to whatever they see fit, why they will not just say what that is I do not know. Can I propose for starters "Flood resilient/resistant construction techniques and 600mm demountable defences" plus the occupants signing up to the EA Early Warnings and abiding by as instructed by those.

Regards extension of time to determine whatever you need is agreed.

Keith

Dear Keith

We have now received the attached response from the EA who maintain their objection and have outlined what you need to do to overcome this.

As outlined in my email below, we will now need to re-evaluate the agreed extension of time of 08/04/21 and given I need to do the 5 day notification procedure we will have to move quickly on this one.

As we did with their first objection, should you wish to respond to the EA's objection, can you confirm that is the case, we can then agree a further extension of time to allow you to prepare a response and re-consult them accordingly based on your response. Just an acknowledgement that is how you wish to proceed is requested no later than close of play Friday (26/03/21).

Kind regards,

Grant
