**Subject:** RE: Application (B/21/0042) to vary Condition C3 (A1 retail unit) of approval B/01/0632

Hi Simon,

Many thanks for your email and that's a very quick response from Environmental Health, much appreciated!

It is anticipated that there will be external plant but these will form part of a subsequent planning application for refurbishment/external alterations by the tenant once (hopefully) we have the principle of the food use authorised through this application. I can ask that the tenant liaises with your colleagues in Environmental Health on these points prior to an application. I hope this helps.

Many thanks and kind regards  
Mike
