Morning Emma

Further to our telephone conversation yesterday please find attached photographs of the chestnut tree in our back garden. Like I mentioned the tree surgeon said it has got some disease so at some stage we will have to make the decision to remove it so I would rather deal with it now if possible as it is very close to the house and a worry as after the last lot of winds we had to carry out some repairs to the house. We would also like to put a solar roof on the house and we have been advised it will not be possible due to the tree, obviously as part of the works we would plant a new tree further away from the house in the back garden should we be allowed to.

Regards

John Murray
