Dear Sharon

Attached is the type of design we are hoping to have but without the spikes on top and the width between the metal bars at the top of the gates continued to the bottom so the whole gate is the same apart from our house name being inserted under the top bow. We will be asking Lincoln Metalcraft of Lincoln to make these bespoke gates which would be wrought iron and powder coated in grey. As they are bespoke we only have our idea based on the above .

Hope this is enough information

Kind regards Julie Allen
