5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO?

☒ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area?

☐ Yes ☒ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

TPO No 8, T10- oak T11- oak T12- sycamore

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).
Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

T12 - Sycamore tree, fell reason for fell the tree has bracket fungus on the trunk close to the ground. The trees bark is cracking and breaking away, this tree can not recover it will die In time and become dangerous. The tree is leaning towards the drive, the fungus will rot from inside the tree making it unstable in time.

7. Identification Of Tree(s) And Description Of Works continued ...

T12 - continued, If you require a re plant for this tree the customer is open to what you would prefer to replace it with. Having said that I would like a site meeting as the hole site is very crowded with good specimens all ready and I don't think it's necessary.

T11 - Oak tree and T10 - Oak tree,
we would like to do the same works to both, remove dead wood and crossing rubbing branches from within the canopy's.
Crown raise lower branches to 5.5 Meters approx this is to allow more light into the garden and to raise up from the highway to clear vehicles. Garfits lane side reduce the road side back in by 2-3 m to bring back in from the houses and the wires along the road side and along the drive way of number 2 next door tree T10 oak in the corner.
As always any defects found wile climbing the trees will be reported to the council and the customer. Pictures attached clearly show trees location and fungus. Happy to have a site meeting if required.

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. Condition of the tree(s) - e.g. it is diseased or you have fears that it might break or fall:
If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.
- ☒ Yes☐ No

2. Alleged damage to property - e.g. subsidence or damage to drains or drives.
If YES, you are required to provide for:
- ☐ Yes☒ No

Subsidence

A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.
