Subject: Works to trees B/21/0132 application

Good morning

there will be no significant removal of large branches, rather general maintenance such as removal of malformed branches (particularly T3), removal of crowded branches to allow for adequate spacing (all), any that are rubbing across (T2, 4 & 5) and of course removal of any dead or broken branches (nothing visible).

Hope that provides enough information but let me know if you need anything further, thanks

John
